Dear Research Community Members,

On behalf of the Clinical Trial Resources Group, I’d like to take a moment to welcome you to the 2017-2018 year in clinical research. If you have participated in our education offerings in previous years, you may have noticed some changes that I’d like to point out:

- **CRC 1.0 is now presented as 4 individual modules.** You can register for as many modules as you like. This modification was made in response to your feedback.
- **CRC 2.0 has 2 panel discussions.** We thought it would be good to provide a variety of formats for presentations, and to allow greater collaboration between teams with a panel discussion. The first panel is October 11 on research management models. The second one will be later in the year, on participant recruitment.
- **CRC 3.0** annual conference that combines an award dinner with continuing education opportunities. Example topics are: communication skills, professional growth, and team management. Crucial Conversations and Career Pathways in clinical research. This year, in response to feedback, we have created an opportunity to nominate teams for an award..
- **ACRP Webinars: New** for 2017! The UC Davis ACRP e-learning portal now offers ACRP webinar replays in addition to the ACRP course modules. Visit the ACRP e-Learning page on the Clinical Trials Office page to learn more!
- **Our training calendar has moved to the CTSC main calendar.** You can access the calendar by clicking here.

I’m very excited to be here and look forward to an enjoyable program year. Please feel free to reach out to me with feedback or questions as they arise. I am here to help, no matter the question or the feedback.

Sincerely,
Rebecca Fein
